Organismo Notificato n. 1282 - Laboratorio di Prova ISO/IEC 17025 n. 1515L

Ente di Formazione autorizzato n. 6737 - Organismo di Ispezione

PRESS RELEASE – ENTE CERTIFICAZIONE MACCHINE

ENTE CERTIFICATION MACHINES UK LTD, the new UK-based company founded by ECM, is now operational.

Through the company ENTE CERTIFICATION MACHINES UK LTD, ECM expands the range of services it offers to companies wishing to export their products to the UK market.

As of **1st January 2023**, all products destined for the UK market (England, Wales and Scotland) must bear the UKCA mark. CE marking continues to be accepted during the transition period, which ends on 31 December 2022. After this date, the CE marking will no longer be recognised and must be replaced by the UKCA marking.

AUTHORISED REPRESENTATIVE SERVICE. Since Brexit, the United Kingdom has become effectively a 'third country' to the European Union. Therefore, EU-based manufacturers or importers wishing to export their products to the UK must have an Authorised Representative based in the UK.

Ente Certificazione Macchine UK Ltd is able to act as **Authorised Representative** for European companies wishing to place their products on the UK market.

THIRD PARTY UKCA CONFORMITY VERIFICATION. The **UKCA marking (UK Conformity Assessed)** covers the most part of products requiring CE marking and establishes technical requirements, conformity assessment procedures and applicable standards, which are very similar to those of the CE marking.

Ente Certificazione Macchine performs **the third party UKCA conformity verification** activity, which includes verification of the technical documentation that the company must prepare in accordance with the UKCA marking and laboratory tests according to the applicable standards. In case of positive outcome, ECM issues a third-party UKCA Certificate stating that the product meets the requirements.

In order to broaden its core business with services always up-to-date with market needs, ECM has also started the **accreditation process for UKCA marking**.
